INDEX TO VOLUME 8

Original Articles and Abstracts

Author and subject entries are included in one alphabet. Asterisk (*) indicates original article published in *Cancer Research*. Double asterisks (**) indicate papers read before the American Association for Cancer Research, Inc. Because it has been decided to discontinue abstracts, the few contained in this volume have not been indexed. Book reviews are indexed under **Book Reviews** and under name of author of book.

A.A.A.S. Chemical Research Conference on Cancer, 1947. **381

2-Acetaminofluorene, carcinogenic action. Paschkis, K. E., and Cantarow, A., **390

—— influence of thiouracil on carcinoma induced by. Paschkis, K. E., Cantarow, A., and Stasney, J., *257

Adair, F. E. *See* Mellors, R. C., **386

Adenocarcinoma, dbrB, respiration affected by beef spleen extract during storage. Suter, M. St. A., and McDevitt, M. L., *500

—— stomach, early changes in experimental production. Howes, E. L. and de Oliviera, J. R., *419

Adenomas, stomach, early changes in experimental production. Howes, E. L., and de Oliviera, J. R., *419

Adrenal, cortical extract, effect on growth certain mouse tumors. Diller, I. C., Beck, L.V., and Blauch, B., *581

—— —— tumors by castration, relationship of inherited hormonal influence to production. Smith, F. W., *641

—— glands tumor-bearing mice injected with *Serratia marcescens* polysaccharide alone and with adrenal cortical extract, histological changes. Diller, I. C., Blauch, B., and Beck, L.V., *591

—— growth or retrogression of transplantable lymphosarcoma of rat affecting. Murphy, J. B., and Sturm, E., *139

Allen, E. *See* Pfeiffer, C. A., *97

Alloxan-diabetic rats, incidence of benzpyrene-induced sarcomas in. Dunning, W. F., Curtis, M. R., and Friedgood, C. K., *83

Allsopp, C. B. *See* Fell, H. B., *145, *177

American Association for the Advancement of Science. *See* A.A.A.S., **381

—— Symposium. 511 (bk. rev.)

Amphibians, reptiles, fishes, tumors of. Schlumberger, H. G., and Lucké, B., *657

Amtman, L. *See* Meyer, K. A., *513

Androgen and estrogen treated hybrid mice, Carcinomas of cervix and vagina in. Pan, S. C., and Gardner, W. U., *337

Ascorbic acid content liver, mice and rats, effect carcinogenic compounds on. Daff, M., Hoch-Ligeti, C., Kennaway, E. L., and Tipler, M. M., *376

—— —— —— in human cancer tissue. Góth, A., and Littman, I. *349

Ayres, W. W. A method of staining nucleoli of cells in fresh benign and malignant tissues. *352

Azo dyes, hepatic riboflavin and tumor formation in rats fed. Griffin, A. C., and Baumann, C. A., *279

Bass, A. D., and Feigelson, M. Response of normal and malignant lymphoid tissue to methyl-Bis-(β-chloroethyl) amine and ethyl carbamate (urethane) in adrenalectomized and nonadrenalectomized mice. *503

Baumann, C. A. *See* Griffin, A. C., *135, *279

Beck, L. V. *See* Diller, I. C., *581, 591

—— **Berkowitz, D., and Seltzer, B.** Physiological studies on tumor-inhibiting agents. III. Effect on apparent systolic blood pressure in mice of *Serrotia marcescens* tumor-necrotizing polysaccharide of shear. *162

Beef spleen extract, effect on mitosis in small intestine, mouse. Fardon, J. C., Prince, J. E., and Berning, N., *531

Bennet, H. 512 (bk. rev.)

Benzpyrene, biochemistry of. Weigert, F., *169

—— -induced sarcomas, incidence of, in alloxan-diabetic rats. Dunning, W. F., Curtis, M. R., and Friedgood, C. R., *83

Berkowitz, D. *See* Beck, L. V., *162

Bernhard, A., Rosenbloom, L., and Eichen, S. Study of inorganic phosphorus release accompanying glycolysis of blood in cancer. *295

Berning, N. *See* Fardon, J. C., *531

Bittner, J. J. Some enigmas associated with genesis of mammary cancer in mice. *625

Black, M. M., Kleiner, I. S., and Bolker, H. Changes in heat coagulation of plasma from cancer patients. *79

Blauch, B. *See* Diller, I. C., *581, 591

Block, M. H. *See* Spurr, C. L., **387

Bolker, H. *See* Black, M. M., *79

Book reviews. A contribution to the knowledge of the influences of gonadotropic and sex hormones on the gonads of rat. Gaarenstroom, J. H., and De Jongh, S. E., 511

—— Approaches to tumor therapy. Symposium Am. Assoc. Advancement of Science, Gibson Island, Md., 1945-46. 511

—— Experimental embryology. Woerdeman, M. W., and Raven, Chr. P., 511

—— Practical emulsions. Bennet, H., 512

Boyland, E. Effects of chlorethylamines on tumors. **388

Breedis, C. *See* Lucké, B., *473

Brues, A. M. Introduction to chemotherapy symposium; aims and methods, **384

Burchenal, J. H. *See* Karnofsky, D. A., *388

—— **Karnofsky, D. A., Erslev, A. J., Craver, L. F., and Rhoads, C. P.** Clinical evaluation of nitrogen mustard derivatives in leukemia, **387

—— **Riley, J. B., and Lester, R. A.** Nitrogen mustard derivatives in chemotherapy of transmitted leukemia in mice. **385

Busk, T. *See* Clemmesen, J., *129

Butros, J. Effect of saponin on tissue and cancer cells *in vitro*. *221

—— —— —— methylcholanthrene on viscosity of paramecium. *347

—— Tumor in fresh-water mussel. *270

Cameron, G. *See* Goldfeder, A. *465

Cancer cells, effect *in vitro* of saponin. Butros, J., *221

—— chemotherapy program, place of tissue culture. Ormsbee, R.A., and Cornman, I., **384

—— —— role of pharmacology. Philips, F. S., **386

—— —— screening program, tissue culture place in. Ormsbee, R. A., and Cornman, I., **384

—— childhood, heterologous transplantation. Eichwald, E. J., *273

—— glycolysis blood in, inorganic phosphorus release with. Bernhard, A., Rosenbloom, L., and Eichen, S., *295

—— —— phosphorylated intermediates, LePage, G. A., *193, *197, *201, *203

—— mammary, advanced, sex hormones. Mellors, R. C., Adair, F.E., Escher, G.C., Farrow, J.H., and Woodard, H. Q., **386

—— —— in mice, some enigmas associated with genesis. Bittner, J. J., *625

—— mortality in Denmark, England, and Switzerland. Clemmesen, J., and Busk, T., *129
—— patients, plasma from, changes in heat coagulation. Black, M. M., Kleiner, I. S., and Bolker, H., *79
—— rhesus monkeys, attempts to produce. Pfeiffer, C. A., and Allen, E., *97
—— tissue human, ascorbic acid content in. Góth, A., and Littman, I., *349
Cantarow, A. *See* Paschkis, K. E., *257, **390
—— **Stasney, J., and Paschkis, K. E.** Influence of sex hormones on mammary tumors induced by 2-acetaminofluorene. *412
Carcinogenesis, epidermal, development of sebaceous glands in mice, role in. Suntzeff, V., Carruthers, C., and Cowdry, E. V., **390
Carcinogenic action of 2-acetaminofluorene. Paschkis, K. E., and Cantarow, A., **390
—— agents, solvents influence effectiveness. Strait, L. A., Hrenoff, M. K., and DeOme, K. B., *231
—— compounds, effect on ascorbic acid content liver, mice and rats. Daff, M., Hoch-Ligeti, C., Kennaway, E. L., and Tipler, M. M., *376
—— ——related to *p*-dimethylaminoazobenzene, carcinogenicity of. Sugiura, K., *141
Carcinogenicity, distribution and metabolism on *N*-acetyl-2-aminofluorene in rat. Morris, H. P., Westfall, B. B., Dubnik, C. S., and Dunn, T. B., **390
Carcinogens, lack of extractable, in skin of patients with multiple precancerous keratoses of actinic origin. Mohs, F. E., *371
Carcinoma, cervix and vagina, in hormone treated hybrid mice. Pan., S. C., and Gardner, W. U., *337
—— induced, thiouracil influencing. Paschkis, K. E., Cantarow, A., and Stasney, J., *257
—— mammary, analogous, mouse, response to radiation. Goldfeder, A., and Cameron, G., *465
—— ovarian primary, diagnosis and treatment, radiation. Freed, J. H., and Pendergrass, E. P. *361
—— sarcoma and melanoma in mice, effects of metabolic products of fungi on viability and growth. Stock, C. C., Sugiura, K., and Rhoads, **384
—— *Staphylococcus aureus* extract affecting mouse. Kelly, T. A., and McDowell, M. A., *495
—— thiouracil influencing induced. Paschkis, K. E., Cantarow, A., and Stasney, J., *257
—— transplantable growth retardation in mice fed basic metachromatic dyes, Riley, J. F., *183
—— vagina and cervix, in hormone treated hybrid mice. Pan, S. C., and Gardner, W. U., *337
Carmichael, N. *See* Taylor, A., *264
Carruthers, C. *See* Suntzeff, V., **390
Cells, method of staining nucleoli, in fresh benign and malignant tissues. Ayres, W. W. *352
Cervix, carcinomas, in hormone-treated hybrid mice. Pan, S. C., and Gardner, W. U., *337
Chemotherapeutic agents against neoplastic disease, evaluation of. Karnofsky, D. A., and Burchenal, J. H., **388
Chemotherapy, cancer, role of pharmacology. Philips, F. S., **386
—— symposium, aims and methods. Brues, A. M., **384
Chick embryo, sarcoma 180, agents affecting growth on chorioallantoic membrane. Karnofsky, D. A., Parisette, L. M., and Patterson, P. A., **389
Chloroethylamines, effects on tumors. Boyland, E., **388
Chondrogenes and viruses, mutant, influence on plant cells. Woods, M. W., and DuBuy, H. G., **391
Clemmesen, J., and Busk, T. Cancer mortality among males and females in Denmark, England, and Switzerland. III. Cancers of accessible and inaccessible sites. *129
Cloudman, A. M. *See* Snell, G. D., *429
Cornman, I. *See* Ormsbee, R. A. **384
Cowdry, E. V. *See* Suntzeff, V., **390
Craver, L. F. *See* Burchenal, J. H., **387, Hoster, H. A., *1, *49
Creech, H. J., Hamilton, M. A., and Diller, I. C. Comparative studies of immunological, toxic and tumor-necrotizing properties of polysaccharides from *Serratia marcescens* (*Bacillus prodigiosus*). *318
—— ——, **Nishimura, E. T., and Hankwitz, B. S., Jr.** Influence of antibody-containing fractions on lethal and tumor-necrotizing actions of polysaccharides from *Serratia marcescens* (*Bacillus prodigiosus*). *330
Curtis, M. R. *See* Dunning, W. F., *83
Daff, M., Hoch-Ligeti, C., Kennaway, E. L., and Tipler, M. M. Effect of carcinogenic compounds on ascorbic acid content of liver in mice and rats. *376
de Oliviera, J. R. *See* Howes, E. L., *419
DeOme, K. B. *See* Strait, L. A., *231
de Ropp, R. S. Tumor formation on plant stem fragments *in vitro*. *519
Diller, I. C. *See* Creech, H. J., *318
——, **Beck, L. V., and Blauch, B.** Effect of adrenal cortical extract on growth of certain mouse tumors. *581
—— **Blauch, B., and Beck, L. V.** Histological changes in adrenal glands of tumor-bearing mice injected with *Serratia marcescens* polysaccharide alone and in combination with adrenal cortical extract. *591
Diphenylamine reaction of human serum. Niazi, S., and State, D., *653
Downing, V. Screening of chemical agents for capacity to damage tumors *in vivo*. **385
Dratman, M. B. *See* Hoster, H. A., *1, *49
Dubnik, C. S. *See* Morris, H. P., **390
DuBuy, H. G. *See* Woods, M. W., **391
Dunn, T. B. *See* Morris, H. P., **390
Dunning, W. F., Curtis, M. R., and Friedgood, C. E. Incidence of benzpyrene-induced sarcomas in alloxan-diabetic rats. *83
Eichen, S. *See* Bernhard, A., *295
Eichwald, E. J. Heterologous transplantation of cancer of childhood. *273
Electron microscopy tissue sections. I. normal. II. neoplastic tissue. Gessler, A. E., Grey, C. E., Schuster, M. C., Kelsch, J. J., and Richter, M. N. *534, *549
Ely, J. O., and Ross, M. H. Nucleic acid content in intestines of rats after neutron radiation. *285
—— **and** —— after X-radiation. *607
Erslev, A. J. *See* Burchenal, J. H., **387
Escher, G. C. *See* Mellors, R. C., **386
Estrogen and androgen-treated hybrid mice, Carcinomas of cervix and vagina in. Pan, S. C., and Gardner, W. U., *337
—— attempted cancer production in rhesus monkeys. Pfeiffer, C. A., and Allen, E., *97
Fardon J. C., Prince, J. E., and Berning, N. Effect of beef spleen extract on mitosis in small intestine of mouse. *531
Farrow, J. H. *See* Mellors, R. C., **386
Feigelson, M. *See* Bass, A. D., *503
Fell, H. B., and Allsopp, C. B. Action of mustard gas on living cells *in vitro*. *145
—— **and** —— Effect of repeated applications of minute quantities mustard gas ($\beta\beta'$-Dichlorodiethylsulphide) on skin of mice. *177
Field, J. B. Prothrombin activity in rats with mammary tumors. *172
Fishes, amphibians, and reptiles, tumors of. Schlumberger, H. G., and Lucké, B., *657
Fluharty, R. G. *See* Rawson, R. W., **382
Freed, J. H., and Pendergrass, E. P. Diagnosis and treatment of primary ovarian carcinoma with special reference to radiation therapy. *361
Friedgood, C. E. *See* Dunning, W. F., *83
Gaarenstroom, J. H., and De Jongh, S. E., 511 (bk. rev.)
Gardner, W. U. *See* Pan, S. C., *337, *613

—— Hormonal imbalance in tumorigenesis. *397
—— **and Pan, S. C.** Malignant tumors of uterus and vagina in untreated mice of PM stock. *241
Gessler, A. E., Grey, C. E., Schuster, M. C., Kelsch, J. J., and Richter, M. N. Notes on electron microscopy of tissue sections. I. normal. II. neoplastic. *534, *549.
Gilder, H. *See* Summerson, W. H., **381
Glycolysis blood in cancer, inorganic phosphorus release with. Bernhard, A., Rosenbloom, L., and Eichen, S., *295
—— tumor, phosphorylated intermediates in. LePage, G. A., *193, *197, *201, *203
Gold colloids, and radioactive manganese, in treatment of malignancies. Hahn, P. F., and Sheppard, C. W., **382
Goldfeder, A. Effects of radiation on mammalian tissue cells, normal and malignant. **383
—— **and Cameron, G.** Growth in tissue culture of analogous mouse mammary carcinomas and their response to radiation. *465
Goldfish, corium, common mesenchymal tumors. Lucké, B., Schlumberger, H., and Breedis, C., *473
Góth, A., and Littman, I. Ascorbic acid content in human cancer tissue. *349
Graff, S. Studies on nucleic acid metabolism. **382
Grey, C. E. *See* Gessler, A. E., *534, *549
Griffin, A. C., and Baumann, C. A. Hepatic riboflavin and tumor formation in rats fed azo dyes in various diets. *279
—— **and** —— Note on heat coagulation of homogenates from normal and precancerous livers. *135
Hahn, P. F., and Sheppard, C. W. Use of radioactive manganese and gold colloids in treatment of malignancies. **382
Hall, B. E. Radiophosphorus therapy. **383
Hamilton, M. A. *See* Creech, H. J., *318, *330
Hankwitz, R. F. *See* Creech, H. J., *330
Hepatomas, relation to of carcinogenic azo dyes in livers of rats fed diets containing *p*-dimethylaminoazobenzene. *301
——, effect rice diets on formation of induced and spontaneous in mice. *309
Hoch-Ligeti, C. *See* Daff, M., *376
Hodgkin's Disease. Parts I and II. Hoster, H. A., Dratman, M. B., Craver, L. F., and Rolnick, H. A., *1, *49
Hoffman, S. J. *See* Meyer, K. A., *513
Homogenates, heat coagulation of, in livers. Griffin, A. C., and Baumann, C. A., *135
Hormonal imbalances, in tumorigenesis. Gardner, W. U., *397
—— relationship of inherited, to production of adrenal cortical tumors by castration. Smith, F. W., *641
Hormones, sex, influencing induced mammary tumors. Cantarow, A., Stasney, J., and Paschkis, K. E., *412
—— —— use in advanced mammary cancer. Mellors, R. C., Adair, F. E., Escher, G. C., Farrow, J. H., and Woodard, H. Q., **386
Hoster, H. A., Dratman, M. B., Craver, L. F., and Rolnick, H. A. Hodgkin's Disease. Parts I and II. *1, *49
Howes, E. L., and de Oliviera, J. R. Early changes in experimentally produced adenomas and adenocarcinomas stomach. *419
Hrenoff, M. K. *See* Strait, L. A., *231
Hydrocarbons, aromatic, mast cell reaction mouse skin. Sylvén, B., and Larsson, L.-G., *449
—— carcinogenic, attempted cancer production in rhesus monkeys. Pfeiffer, C. A., and Allen, E., *97
Jacobson, L. O. *See* Spurr, C. L., **387
Kammerling, E. M. *See* Meyer, K. A. *513
Karnofsky, D. A. *See* Burchenal, J. H., **387
—— **and Burchenal, J. H.**—Evaluation of chemotherapeutic agents against neoplastic disease. **388
—— **Parisette, L. M., and Patterson, P. A.** Effect of various agents on growth of sarcoma 180 on chorioallantoic membrane of chick embryo. **389
Kelly, T. A., and McDowell, M. A. Studies *in vitro* and *in vivo* on effects of *Staphylococcus aureus* extract on mouse carcinoma. *495
Kelsch, J. J. *See* Gessler, A. E., *534, 549
Kennaway, E. L. *See* Daff, M. *376
Keratoses, multiple precancerous of actinic origin, lack of extractable carcinogens in skin. Mohs, F. E., *371
Kleiner, I. S. *See* Black, M. M., *79
Koller, M. *See* Meyer, K. A., *513
Krejci, L. E., Ross, M. H., and Sweeny, L. Plasma changes in fowls with transmissible multiple lymphoma. *575
Laidlaw, G. F. In Memoriam. Stout, A. P. *189
Larsson, L.-G. *See* Sylvén, B. *449
Lee, J. M. *See* Summerson, W. H., **381
Le Page, G. A. *See* Novikoff, A. B., *203
—— Phosphorylated intermediates in tumor glycolysis. I. Analysis of tumors. II. Isolation of phosphate esters from tumors. III. Effects of anoxia and hyperglycemia. *193, *197, *201
Lester, R. A. *See* Burchenal, J. H., **385
Leukemia, nitrogen mustard derivatives, chemotherapy of transmitted, mice. Burchenal, J. H., Riley, J. B., and Lester, R. A., **385
—— —— —— —— clinical evaluation of, Burchenal, J. H., Karnofsky, D. A., Erslev, A. J., Craver, L. F., and Rhoads, C. P., **387
Liang, H. M. Localized changes in methylcholanthrene-treated epidermis. *211
Littman, I. *See* Góth, A., *349
Liver, effect carcinogenic compounds on ascorbic acid content, mice and rats, Daff, M., Hoch-Ligeti, C., Kennaway, E. L., and Tipler, M. M., *376
—— increased weight in tumor-bearing Wistar rats. Yeakel, E. H., *392
—— normal and precancerous, heat coagulation of homogenates. Griffin, A. C., and Baumann, C. A., *135
—— normal, respiration affected by beef spleen extract during storage. Suter, M. St.A., and McDevitt, M. L., *500
Lucké, B. *See* Schlumberger, H. G., *657
—— **Schlumberger, H., and Breedis, C.** Common mesenchymal tumors of corium of goldfish, *Carassius auratus*. *473
Lymphoid organs, growth or retrogression of transplantable lymphosarcoma of rat affecting. Murphy, J. B., and Sturm, E., *139
—— tissue, response to urethane, mice. Bass, A. D., and Feigelson, M., *503
Lymphoma, nitrogen mustard therapy, clinical response and histopathologic reaction. Spurr, C. L., Block, M. H., Smith, T. R., and Jacobson, L. O., **387
—— transmissible multiple, plasma changes, fowls. Krejci, L. E., Ross, M. H., and Sweeny, L., *575
Lymphosarcoma, metabolic and enzymatic characteristics of. Summerson, W. H., Gilder, H., and Lee, J. M., **381
—— transplantable, of rat, growth or retrogression effect on lymphoid organs and adrenals of hosts. Murphy, J. B., and Sturm, E., *139
MacFarlane, E. W. E., Schmock, N. G., and Nadeau, L. V. Effect of cold and of beef spleen on dbrB mouse tumor cells as shown by growth of transplants into dba mice and by cytologic examination. *438
Mammary cancer, advanced, use of sex hormones. Mellors, R. C., Adair, F. E., Escher, G. C., Farrow, J. H., and Woodard, H. Q. **386
—— —— mice, some enigmas associated with genesis of. Bittner, J. J., *625

—— carcinomas, analogous mouse, grown in tissue culture, response to radiation. Goldfeder A., and Cameron, G., *465
—— tumors, prothrombin activity in rats. Field, J. B., *172
Marinelli, L. *See* Rawson, R. W., **382
Mast cell reaction in mouse skin to some organic chemicals. III. Early effect aromatic hydrocarbons. Sylvén, B., and Larsson, L.-G., *449
McDevitt, M. L. *See* Suter, M. St.A., *500
Melanoma, metabolic products of fungi in viability and growth. Stock, C. C., Sugiura, K., and Rhoads, C. P., **384
Mellors, R. C., Adair, F. E., Escher, G. C., Farrow, J. H., and Woodard, H. Q. Use of sex hormones in advanced mammary cancer. **386

pH studies of malignant tissues in human beings. Meyer, K. A., Kammerling, E. M., Amtman, L., Koller, M., and Hoffman, S. J. *513
Philips, F. S. Role of pharmacology in chemotherapy of cancer. **386
Phosphorus release, inorganic, accompanying glycolysis blood in cancer. Bernhard, A., Rosenbloom, L., and Eichen, S., *295
Plant cells, mutant chondrogenes and viruses influencing. Woods, M. W., and DuBuy, H. G., **391
—— stem fragments, tumor formation, *in vitro*. de Ropp, R. S., *519
Plasma, from cancer patients, changes in heat coagulation. Black, M. M., Kleiner, I. S., and Bolker, H., *79
Polysaccharide, alone and with adrenal cortical extract, histological changes in adrenal glands of tumor-bearing mice. Diller, I. C., Blauch, B., and Beck, L. V. *591
Potter, V. R. *See* Novikoff, A. B.
Prince, J. E. *See* Fardon, J. C., *531
Radiation, effect on mammalian tissue cells. **383
—— neutron- and x-nucleic acid content in intestines of rats after. Ely, J. O., and Ross, M. H. *285, *607
—— therapy, primary ovarian carcinoma. Freed, J. H., and Pendergrass, E. P. *361
Radioactive iodine, collection of, by tumors of thyroid. Rawson, R. W., Skanse, B. N., Fluharty, R. G., and Marinelli. L,, **382
—— manganese and gold colloids in treatment of malignancies. Hahn, P. F., and Sheppard, C. W., **382
Radiophosphorus therapy. Hall, B. E. **383
Rawson, R. W., Skanse, B. N., Fluharty, R. G., and Marinelli. Collection of radioactive iodine by benign and malignant tumors of thyroid. **382
Reptiles, fishes, amphibians, tumors of. Schlumberger, H. G., and Lucké, B., *657
Rhoads, C. P. *See* Burchenal, J. H., **387, Stock, C. C. **384

Riboflavin, hepatic, and tumor formation in rats fed azo dyes. Griffin, A. C., and Baumann, C. A., *279
Richter, M. N. *See* Gessler, A. E., *534, *549
Riley, J. B. *See* Burchenal, J. H., **385
Riley, J. F. Retardation of growth of transplantable carcinoma in mice fed basic metachromatic dyes. *183
Rolnick, H. A. *See* Hoster, H. A., *1, *49
Rosenbloom, L. *See* Bernhard, A., *295
Ross, M. H. *See* Ely, J. O., *285, *607, Krejci, L. E., *575
Sarcomas in alloxan-diabetic rats, incidence of benzpyrene-induced. Dunning, W. F., Curtis, M. R., and Friedgood, C. E., *83
Sarcoma, metabolic products of fungi in viability and growth. Stock, C. C., Sugiura, K., and Rhoads, C. P., **384
—— 180, agents affecting growth on chorio-allantoic membrane of chick embryo. Karnofsky, D. A., Parisette, L. M., and Patterson, P. A., **389
—— 180, mouse, parasitization by vaccine virus, and effect on growth. Turner, J. C., **391
Schlumberger, H. *See* Lucké, B., *473
——, **and Lucké, B.** Tumors of fishes, amphibians, and reptiles. *657
Schmock, N. G. *See* MacFarlane, E. W. E., *438
Schuster M. C. *See* Gessler A. E., *534, 549
Sebaceous glands, development, and role in epidermal carcinogenesis. Suntzeff, V., Carruthers, C., and Cowdry, E. V., **390
Seltzer, B. *See* Beck, L. V., *162
Sheppard, C. W. *See* Hahn, P. F., **382
Silverstone, H. Levels of carcinogenic azo dyes in livers of rats fed various diets containing *p*-dimethylaminoazobenzene. Relationship to formation of hepatomas. *301
—— Effect of rice diets on formation of induced and spontaneous hepatomas in mice. *309
Skanse, B. N. *See* Rawson, R. W., **382
Skin carcinogenesis, development of sebaceous glands in mice, role in. Suntzeff, V., Carruthers, C., and Cowdry, E. V., **390
—— lack of extractable carcinogens, multiple precancerous keratoses of actinic origin. Mohs, F. E., *371
—— mast cell reaction in mouse, to some organic chemicals. III. Early effect aromatic hydrocarbons. Sylvén, B., and Larsson, L.-G., *449
—— methylcholanthrene-treated, localized changes. Liang, H. M., *211
Smith, F. W. Relationship of inherited hormonal influence to production of adrenal cortical tumors by castration. *641
Smith, T. R. *See* Spurr, C. L., **387
Snell, G. D., Cloudman, A. M., and Woodworth, E. Tumor immunity in mice induced with lyophilized tissue, as influenced by tumor strain, host strain, source of tissue, and dosage. *429
Spencer, R. R. *See* Melroy, M. B., **381
Spurr, C. L., Block, M. H., Smith, T. R., and Jacobson, L. O. Observations on clinical response and histopathologic reaction of lymphoma to nitrogen mustard therapy. **387
Stasney, J. *See* Cantarow, A., *412, Paschkis, K. E. *257
State, D. *See* Niazi, S., *653
Stock, C. C., Sugiura, K., and Rhoads, C. P. Effects of metabolic products of fungi on viability and growth of carcinoma, sarcoma and melanoma in mice. **384
Stomach tumors, early changes in experimental production. Howes, E. L., and de Oliviera, J. R., *419
Stout, A. P. In Memoriam: George Frederick Laidlaw (1871-1937), *189
Strait, L. A., Hrenoff, M. K., and DeOme, K. B. Influence of solvents upon effectiveness of carcinogenic agents. *231
Sturm, E. *See* Murphy, J. B., *139
Sugiura, K. *See* Stock, C. C., **384
—— Carcinogenicity of certain compounds related to *p*-dimethylaminoazobenzene. *141
Summerson, W. H., Gilder, H., and Lee., J. M. Metabolic and enzymatic characteristics of lymphosarcoma. **381
Suntzeff, V., Carruthers, C., and Cowdry, E. V. Studies on development of sebaceous glands in mice and their role in epidermal carcinogenesis. **390
Survival, studies in. Melroy, M. B., and Spencer, R. R., **381
Suter, M. St.A., and McDevitt, M. L. Effect of beef spleen extract on respiration of normal liver and dbrB adenocarcinoma during storage at 4° C. *500
Sweeny, L. See Krejci, L. E., *575
Sylvén, B., and Larsson, L.-G. Mast cell reaction in mouse skin to some organic chemicals. III. Early effect of aromatic hydrocarbons. *449
Taylor, A., Carmichael, N., and Norris, T. Further report on yolk sac cultivation of tumor tissue. *264
Thiouracil, influencing induced carcinoma. Paschkis, K. E., Cantarow, A., and Stasney, J., *257
Tipler, M. M. *See* Daff, M., *376
Tissue cells, mammalian, radiation affecting. Goldfeder, A., **383
—— culture, analogous mouse mammary carcinomas, response to radiation. Goldfeder, A., and Cameron, G., *465
—— —— place in cancer chemotherapy screening program. Ormsbee, R. A., and Cornman, I., **384
—— —— yolk sac. Taylor, A., Carmichael, N., and Norris, T., *264
—— effect of saponin *in vitro*. Butros, J., *221
—— fresh benign and malignant, method of staining nucleoli of cells. Ayres, W. W., *352
—— malignant, human, pH studies. Meyer, K. A., Kammerling, E. M., Amtman, L., Koller, M., and Hoffman, S.J., *513
—— sections electron microscopy. I. normal. II. neoplastic. Gessler, A. E., Grey, C. E., Schuster, M. C., Kelsch, J. J., and Richter, M. N., *534, *549
Transplantation, heterologous, of cancer of childhood. Eichwald, E. J., *273
Transplants, tumor cells, cold and beef spleen extract affecting. MacFarlane, E. W. E., Schmock, N. G., and Nadeau, L. V., *438
Treatment and diagnosis primary ovarian carcinoma with special reference to radiation therapy. Freed, J. H., and Pendergrass, E. P., *361
Tumor, adrenal cortical, extract affecting mouse growth. Diller, I. C., Beck, L. V., and Blauch, B., *581
—— —— —— histological changes in adrenals mice, polysaccharide alone and with. Diller, I. C., Blauch, B., and Beck, L. V., *591
—— —— —— relationship of inherited hormonal influence to production by castration. Smith, F. W., *641
—— cells, dbrB mouse, effect of cold and beef spleen extract on growth of transplants. Macfarlane, E. W. E., Schmock, N. G., and Nadeau, L. V., *438
—— chloroethylamines, effects on. Boyland, E., **388
—— damage *in vivo,* screening of chemical agents for. Downing, V., **385
—— effects of chlorethylamines on. Boyland, E., **388
—— fishes, amphibians, and reptiles. Schlumberger, H. G., and Lucké, B., *657
—— formation in rats fed azo dyes, hepatic riboflavin. Griffin, A. C., and Baumann, C. A., *279
—— —— on plant stem fragments *in vitro*. *519
—— glycolysis, phosphorylated intermediates in. I. Analysis of tumors. II. Isolation of phosphate esters from tumors. III. Effects of anoxia and hyperglycemia. LePage, G.A. *193, *197, *201
—— —— —— —— —— IV. Glycolysis in tumor homogenates. Novikoff, A. B., Potter, van R., and LePage, G. A., *203

—— growth, parasitization of mouse sarcoma 180 by vaccine virus, effect on. Turner, J. C., **391
—— immunity, induced, as influenced by tumor and host strain. Snell, G. D., Cloudman, A. M., and Woodworth, E., *429
—— in mussel. Butros, J., *270
—— *in vivo*, screening of chemical agents for capacity to damage. Downing, V., **385
—— -inhibiting agents, physiological studies. Beck, L. V., Berkowitz, D., and Seltzer, B., *162
—— —— uterus and vagina in untreated PM mice. Gardner, W. U., and Pan., S. C., *241
—— mammary, 2-acetaminofluorine, sex hormones influencing. Cantarow, A., Stasney, J., and Paschkis, K. E., *412
—— —— prothrombin activity in rats. Field, J. B., *172
—— mesenchymal, corium of goldfish. Lucké, B., Schlumberger, H., and Breedis, C., *473
—— necrotizing properties of polysaccharides from *Serratia marcescens*, comparative studies of immunological, toxic. Creech, H. J., Hamilton, M. A., Diller, I. C. *318
—— —— actions of polysaccharides from *Serratia marcescens*, influence of antibody-containing fractions on lethal. Creech, H. J., Hamilton, M. A., Nishimura, E. T., and Hankwitz, R. F., Jr. *330
—— of fishes, amphibians, and reptiles. Schlumberger, H. G., and Lucké, B., *657
—— tissue, yolk sac cultivation. Taylor, A., Carmichael, N., and Norris, T., *264
—— uterus and vagina, PM mice. Gardner, W. U., and Pan, S. C., *241, *613

Tumorigenesis, hormonal imbalances. Gardner, W. U., *397
Turner, J. C. Parasitization of mouse sarcoma 180 by vaccine virus and effect on tumor growth. **391
Urethane, response of lymphoid tissue, in mice. Bass, A. D., and Feigelson, M., *503
Uterus, cornua and cervices, transplanted, tumor induction in. Pan, S. C., and Gardner, W. U., *613
—— malignant tumors, in treated PM mice. Gardner, W. U., and Pan, S. C., *241
Vagina, carcinomas, in hormone-treated mice. Pan, S. C., and Gardner, W. U., *337
—— malignant tumors, untreated PM mice. Gardner, W. U., and Pan, S. C. *241
Virus vaccine parasitization of mouse sarcoma 180, effect on tumor growth. Turner, J. C., **391
Viruses, influence of mutant chondrogenes and, on plant cells. Woods, M. W., and DuBuy, H. G., **391
Weigert, F. Biochemistry of benzpyrene. III. Quantitative estimation of metabolites. *169
